

## 24- Tube Chiller Block Microfuge Tube

Catalog # (P/N): CB024

### Precautions:

None

---

## USER INFORMATION

---

### Product Description:

Permagen Labware's 24- Tube Chiller Block is designed for temperature control of your samples in standard 1.5 mL – 2.0 mL Microfuge tubes. Standard SBS footprint base which will fit into almost any standard liquid handler.

### Care/ Cleaning:

If solutions are spilled onto the magnet plate carefully rinse with tap water and allow to air dry completely before use. A mild soap may also be used if more extreme cleaning is necessary. Always use care when storing product when not in use.

---
