

## T Series 96- Well Magnet Plate

**All Permagen Labware Magnetic Separation Plates are designed for both performance and durability.**

- Solid aluminum construction for precise, trouble free use eliminating the concern for material inconsistencies or breakage associated with some plastic products on the market
- Precision engineered, giving you repeatable, reliable results
- Unique, fastener free construction, equals no screws or pins to come loose
- Specifically designed as a direct upgrade magnet plate for the Biomek® work stations using current protocol and machine definitions. No modifications are necessary
- Side clearance for liquid handler grippers
- Hard-coat finished to maximize durability
- 96 Strong Neodymium ring magnets for fast separations of many magnetic bead chemistries  
\*beads are pulled into a small ring (approx 4mm) near well bottoms
- SBS compliant footprint for automation
- Suitable for manual or robotic use
- Maximum working volume of 1 mL
- Volume discounts available
- Most durable magnet plates on the market at competitive prices
- *Made in USA*
